GENERAL AND REVENUE SECRETARIAT

Serial Nos. 3

Part B for March 1946.

SUBJECT

New Power Agreement with the K & F. Mining Companies – Reduction in the Reserved Blocks till the end of December 1944. Continued till the end of March 1945.

New Power Agreement with the K.G.F. Mining Companies

Electrical
Public Works Secretariat. D.1203

File No. of 194 .

Serial No.

Letter No. 6971 dated the 23/24th October 1944 from the Chief Electrical Engineer.

Requests approval of Govt. for the temporary reduction of the reserved block from 15,500 K.W. to 12,500 K.W. from the months of ~~May~~ August to December 1944.

It is stated that the reduction is subject to the condition that if between now and the end of this year more power can be utilised by the Mining companies if it is available, arrangements will be made for its supply: and that the revision of the reserved block of power would be taken up during the last week of December 1944.

1. Submitted for orders.

VP 25/10/44 RN 25/10/44

OFFICE OF

the Chief Electrical Engineer,

Bangalore,

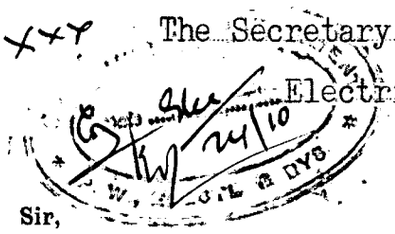
Date 23rd Octrober 1944.
24.

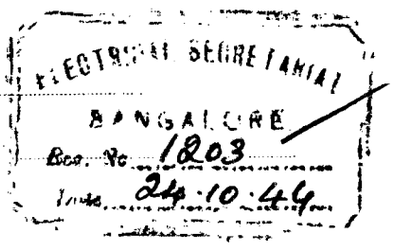
To

XXX The Secretary to Government,

Electrical Department,

B A N GA L O R E.





Sir,

NEW POWER AGREEMENT.
K.G.F. MINING COMPANIES.

In continuation of this office letter No.7951 dated 9/10th October 1944, I have the honour to state that the Chief Electrical Engineer, K.G.F.Electricity Department, has intimated me that the reserved block of 15,500 K.W. of power as specified under Clause 12(1) of the New Agreement under execution has to be temporarily reduced to 12,500 K.W. till the end of this calendar year, as the K.G.F.Mining Companies are unable to utilise the power to the extent mentioned therein due to labour having left them during the recent accident at Sivasamudram. This reduction will naturally affect Clause 17(1) and Clause 17 (2-A, B. & C.) and the minimum monthly payment specified under Clause 17(1) will be correspondingly reduced. In view of the fact that the labour has left the Companies due to the unfortunate accident at Sivasamudram, the request of the Chief Electrical Engineer, K.G.F.Electricity Department, has to be complied with. The reduction is subject to the condition that if between now and the end of this year more power can be utilised by the Mining Companies if it is available, arrangements will be made by us for its supply and the revision of the reserved block of power would be taken up during the last week of December 1944.

I request that approval of Government may kindly be obtained and communicated for this temporary reduction of reserved block of power specified in the Agreement under the conditions specified above

P.T.O.

2

and the minimum monthly payment prescribed under Clause 17(1) be charged on the basis of a reserved block of 12,500 K.W. of power for the months of August, September, October, November and December 1944. I may here add for the information of Government that during the months of May, June and July, the Mining Companies were charged for the actual consumption, as full power was not allotted to them during these months.

I have the honour to be,
Sir,
Your most obedient servant,

MH-VJN.

Chief Electrical Engineer.

Date 3rd January 1945.

To

The Chief Electrical Engineer,
K.G.F.Electricity Department,
OORGAUM. (K.G.F.)

Sir,

NEW POWER AGREEMENT.

I have for acknowledgment your letter dated the 29th December 1944, and note that you desire that the reserved block of power be retained at 12,500 K.W. during the months of January, February and March 1945. Accordingly I am reporting the matter to the Government and requesting approval therefor.

With regard to the last para of your letter, I have to state that the additional power, if any, required during the period January to March 1945, would be made available provided it is available at the time required by you, as I am arranging to allocate some more power to other industrial concerns due to your inability to take more than 12,500 K.W. during the above period.

I have the honour to be,
Sir,
Your most obedient servant,

Chief Electrical Engineer.

MH-DMJ.

7

Copy of letter dated 29th December 1944 from the Chief Electrical Engineer, The Kolar Gold Field Electricity Department, Oorgaum, to the Chief Electrical Engineer to the Government of Mysore, Bangalore.

NEW POWER AGREEMENT.

With reference to our conversation on the 18th December, 1944, regarding the possibility of the Mines increasing the present Reserved Block of Power, now standing at 12,500 K.Ws. during the months of January, February and March, 1945, I have the honour to inform you that there is no likelihood so far as can be judged at present of an increase in demand in the months specified.

This is due to the present position in connection with the supply of Labour; if that improves to any extent the demand for power may be increased.

I assume that if it should happen that during the months in question a demand for say, another 1000 K.Ws. should arise that you would be in a position to supply.

BANGALORE.
Rec. No. 2454
Date 12/4/45

Sir,

Subject:- Reserved Block of Power - Kolar Gold Fields.

I have the honour to invite your kind reference to G.O.No. EDS.2182-4 dated 24th January 1945, conveying approval of Government for the temporary reduction of the reserved block from 15,500 kW to 12,500 kW, and to enclose herewith a copy of the letter since received from the Chief Electrical Engineer, K.G.F. Electricity Department, requesting for the fixing of the reserved block of power for the months of April, May and June 1945 at 12,960 kW.

I request you to kindly obtain and communicate approval of Government for fixing of the reserved block for the above months at 12,960 kW for reasons mentioned in my letter No.8971 dated 23/24-10-1944.

I have, etc.,

Chief Electrical Engineer.

MH-CSC.

Copy of letter dated 9th April 1945 from the Chief Electrical Engineer, KGF Electricity Department, Oorgaum, to the Chief Electrical Engineer to the Govt. of Mysore, Bangalore.

With reference to my letter to you dated the 29th December 1944, on the subject of the Reserved Block of Power which as stated therein would stand at the figure of 12,500 K.Ws. for January, February and March, 1945, the question of increasing or decreasing that figure has now been discussed with the Mines. I have the honour to confirm that as mentioned to you over the telephone on the 7th April, 1945, that it is desired to increase the Reserved Block of Power to be supplied to the Companies on the Kolar Gold Field to 12,960 kWs. for the months of April, May and June 1945. This figure is the nearest to 13,000 K.Ws. that can be registered by your Printometer Meters.

Sir,

Subject:- Reserved Block of Power, KGF.

I have the honour to invite your kind reference to G.O. No.EDS-3631-33 dated 5th May 1945, conveying approval of Government for fixing the reserved block of power for the Kolar Gold Field Mines for the monthsof April, May and June 1945 at 12,960 kW and to state that the Chief Electrical Engineer, K.G.F. Electricity Department, informs that the same reserved block of power may be continued for the months of July, August and September 1945, after which period any change in the reserved block of power will be intimated by him.
I therefore request you to kindly obtain and communicate approval of Government for fixing the reserved block of power for the months of July, August and September 1945 at 12,960 kW.

I have the honour to be,

Bangalore.

Sir,

Sir,

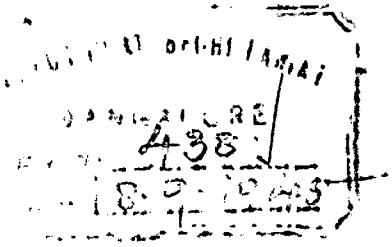
Reserve Block of Power - K.G.F.

With reference to your letter No.EDS.443 dated 1st September 1945, on the above subject, I have the honour to enclose herewith a copy of letter I have received from the Chief Inspector of Mines, K.G.F. detailing out the position regarding labour and working in the Mines. It will be seen therefrom that the conditions have not yet returned to normal and therefore the enforcing of the reserve block at 15,500 kW. would not be acceptable to the Mining authorities. Therefore, the recommendation made in my letter No.533-34 dated 19th/22nd August 1945, may kindly be approved.

I have the honour to be,
Sir,
Your most obedient servant,

Chief Electrical Engineer

MH.BN.



D.O.letter No.406 dated 11th September 1945 from the Chief Inspector of Mines and Explosives, K.G.F., to the Chief Electrical Engineer to the Government of Mysore, Bangalore.

With reference to your D.O. letter No.212 dated 4th September 1945, re: the labour situation on the Kolar Gold Field, I am enclosing herewith a comparative statement showing the average number employed underground and monthly tonnage crushed. It will be seen therefrom that though there has been no great increase, there are indications of a gradual improvement after the strike of May and June 1945. It appears to me that a considerable increase in the number of workmen and the tonnage crushed will take place in the near future.

Sir,

RESERVED BLOCK OF POWER.

In inviting your kind reference to E.D.S.No.808-10 dated 17th October 1945 conveying approval of Government for fixing the reserved block of power of the Kolar Gold Field Mines at 12,960 K.Ws. for the months of July, August and September 1945, for various reasons, I have the honour to enclose herewith a copy of the letter dated 26th September 1945 received from the Chief Electrical Engineer, Kolar Gold Fields, for the information of Government. As requested therein, the reserved block of power may be fixed at 13,392 K.Ws. for the months of October, November and December 1945. The reasons assigned for this request are contained in Chief Electrical Engineer's letter No.nil dated 15th October 1945 a copy of which is herewith enclosed. For reasons set - forth therein, approval of Government may be communicated for keeping the reserved block of power at 13,392 K.Ws. for the months of October, November and December 1945.

I have the honour to be,
Sir,
Your most obedient servant,

Chief Electrical Engineer
to the Government of Mysore.

Letter No.nil dated 26th September 1945 from the Chief Electrical Engineer, Kolar Gold Field Electricity Department, Oorgaum, to the Chief Electrical Engineer to the Government of Mysore, Bangalore.

Reserved Block of Power.

As the period for which our Reserved Block of Power of 12,960 K.Ws. was fixed is now nearing its end, it is necessary to arrange for a block of power for the ensuing period. I have the honour to inform you that after consultation with the Mining Companies on the Kolar Gold Field it was agreed that a block amounting to 13,392 K.Ws. should be applied for as the Reserved Block of Power of the Mining Companies for the months of October, November and December, 1945.

****

Letter No.nil dated 15th October 1945 from the Chief Electrical Engineer, Kolar Gold Field Electricity Department, Oorgaum, to the Chief Electrical Engineer to the Government of Mysore, Bangalore.

Reserved Block of Power.

I have the honour to acknowledge the receipt of your letter No.8159 dated the 27th September 1945, on the above subject, in which you state that as a considerable

P.T.O.

period has elapsed since the breakdown at Sivasamudram normal conditions must be prevailing in the Mining Area and therefore the Government Electrical Department would be right in treating the Reserved Block of Power as 15,500 K.Ws. as inserted in the Agreement.

On receipt of your letter I addressed the Mines on this subject in order to ascertain their official view regarding the operations of the industry. I have to-day received a reply sent by the Secretary to Messrs. John Taylor & Sons' Committee on behalf of all the Mines, and it is to the following effect.

1. As the result of the breakdown at Sivasamudram last year the Companies agreed to release for six months at the request of Government a large number of men, who were thrown out of work, for employment in the Bermo and Talchar Collieries while many others left the Mines to seek employment elsewhere or returned to their homes. Although numbers of these men subsequently returned to the Field the total labour strength was and has continued to be far short of requirements.

2. This serious situation was still further affected by the strike of May, June and July this year which again led to many men leaving the field.

3. This inadequate labour strength coupled with the shortage of supplies of certain essential materials has made it impossible for the Mines to maintain or to step up operations to the scale contemplated when the Agreement was signed.

4. It is regretted that no great improvement in the situation can be anticipated for some time to come but it can be emphasised that as soon as there is an improvement in the labour and material position, an improvement in the power consumption follows which condition is earnestly desired by no one more than the Mines.

5. The agreement which has been in force since last year whereby the power requirements can be stated for three

contd.

months ahead has been very convenient and is greatly appreciated. It is earnestly hoped therefore that this arrangement will be continued until the present difficult and abnormal times are a thing of the past.

Rec. No. 1237
Date 25-1-1946

To
The Secretary to the Government of
His Highness the Maharaja of Mysore,
Electrical Department, BANGALORE.

Sir,

RESERVED BLOCK OF POWER.

I have the honour to invite your kind reference to Govt.Order No.EDS.956-58 dated the 16th Nov.,1945 conveying the approval of Government for the temporary reduction of Reserved Block of Power for the months of October, November & December 1945 to 13392 K.Ws., and to enclose herewith a copy of the letter received from the Chief Electrical Engineer, KGF.Electricity Department, Oorgaum, requesting that the Reserved Block of Power for the Mining Cos., for the months of January, February & March 1946 be fixed at 12960 K.Ws. The Chief Electrical Engineer informs me that the conditions regarding labour and material have not ~~been~~ improved and, therefore, requests that the Reserved Block of Power for these three months be fixed at 12960 K.Ws. I request you to kindly obtain approval of Government therefor under the circumstances stated above. (A)

The question of permanent reduction of Reserved Block of Power required by the Mining Co., is receiving the attention and as soon as a definite letter is received, necessary further action will be taken.

I have the honour to be,
S i r,
Your most obedient servant,

Chief Electrical Engineer.

MH/MA.

Letter dated the 19th Dec.1945 from the Chief Electrical Engineer, The KGF.Electricity Department, Oorgaum, to the Chief Electrical Engineer to the Government of Mysore, Bangalore.

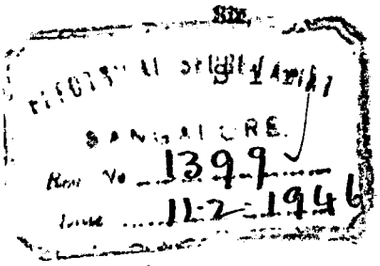
OFFICE OF
THE CHIEF ELECTRICAL ENGINEER TO THE
GOVERNMENT OF MYSORE, BANGALORE,

Date 7TH FEBRUARY 1946.

To

The Secretary to Government,
Electrical Department,
BANGALORE.

Sir,



Mining Companies' Reserved Block of Power.

I have the honour to invite the reference of Government to this office No.19712 dated 23rd January 1946 in para 2 of which, it was stated that the question of permanent reduction of reserved block of power was under consideration. The Chief Electrical Engineer, The Kolar Gold Field Electricity Department, has since intimated me in his letter dated 21st January 1946 (copy enclosed) that the conditions facing the five Companies regarding the use of Electric power were considered and it has been decided reluctantly that it would be necessary to reduce the reserved block which is given in clause 12 (1) of the Agreement as 15,500 kW. to 13,100 kW. This permanent reduction will be operative from 21-7-1946 as six months' notice is necessary for permanent reduction of the Reserved Block under clause (11) of the agreement, and will, of course, be without prejudice to the present temporary arrangement whereby the reserved block is fixed at 12,960 kW. for the months of January, February and March 46 as reported to you in my letter under advertence.

I, therefore, request that sanction of Government may be kindly obtained and communicated for the permanent reduction of the Reserved Block of power to 13,100 kW. under the circumstances stated.

I have the honour to be,
Sir,
Your most obedient servant,

Chief Electrical Engineer.

32

Copy of letter dated 21st January 1946 from the Chief Electrical Engineer, The Kolar Gold Field Electricity Department, Oorgaum, to the Chief Electrical Engineer to the Government of Mysore, Bangalore.

RESERVED BLOCK OF POWER.

In connection with the Reserved Block of Power the conditions facing the five Companies mentioned in the preamble of the Agreement regarding the use of electric power have been considered and it has been decided reluctantly that it will be necessary to reduce the Reserved Block which is given in Clause 12 (1) of the Agreement as 15,500 kWs.

I have the honour therefore in accordance with Clause 11 of the Agreement to advise you that the new Reserved Block required by the five Companies will be 13,104 k.Ws. which is the nearest figure to 13,100 k.Ws. to which your Demand Meter Printometer Chart will read.

This will be without prejudice to the present temporary arrangement whereby the Reserved Block is 12,960 k.Ws.

It is trusted that when conditions are more favourable that there will be no difficulty in supplying the Mines with an increase over the new Reserved Block of 13,104 k.Ws.

Chief Electrical Engineer.
